# CTSU WEBSITE DASHBOARD

# Motivation Behind Dashboard

- CTSU website is growing larger due to:
  - Additional document postings (i.e., CIRB, Funding Information).
  - Integrations with other systems (i.e., Rave, IRB Manager).
- Site users would benefit having one webpage to view user-centric information that **they** think is important.

# Rave Study Access

Ability to view a table of Rave Studies for which the user has access.

The screenshot shows a web application window titled "Rave Study Access". The window contains a table with 10 rows of study data. The table has four columns: "#", "Protocol", "Rave Role(s)", and "Site(s)". The "Rave Role(s)" column for all rows is "RAVE CRA". The "Site(s)" column lists various site identifiers for each study. The table is displayed on page 1 of 6, with a last update time of 12:28:48 PM.

- Dashboard is already set for you. You can use any of 4 system profiles:
  - General
  - Protocol
  - Enrollment
  - Regulatory
- Users can customize the default profiles and save them under different names.
- Users can also create custom profiles according to their preferences.

# How do I set up my Dashboard?

A video tutorial is available on the website

The screenshot shows the CTSU Dashboard website. At the top, there is a navigation bar with buttons for Home, Protocols, Dashboard (highlighted), Regulatory, OPEN, Rave, Clinical Data, and Education & Resources. Below the navigation bar, a message reads: "Welcome to Dashboard. Click [here](#) to watch a video tutorial." The word "here" is highlighted with a dashed box. A blue arrow points from a callout box to this link. The main content area is titled "Using the CTSU Dashboard" and features a "Navigation Menu" on the left with links: "Introduction to the Dashboard", "Creating a Custom Profile", "Portlet Level Standard Features", and "List of Individual Portlets". The main content area is titled "CTSU Dashboard Overview" and contains the following text: "Welcome to the video series for the CTSU Website Dashboard. The CTSU Website Dashboard is an interface providing CTSU members with a single location for viewing information related to their protocols. It also allows access to all available applications under the CTEP federation. The Dashboard was developed based on website user recommendations and testing. This video series introduces the CTSU Website Dashboard and includes instructions for using its key features. First-time users will probably find it helpful to view the videos in the order shown to the left. For ongoing reference, the videos may be accessed in any order." Below the text is a video player interface showing a play button and a progress bar.

In Progress | **Create New** | History | Help Tool

 The Transfer and Update Module(T&UM) handles data update requests (involving updates to a patient's institution, credentialing data, and demographic data) for completed patient enrollments that are maintained in OPEN.

 [Click here](#) to access the tool for locating new sites for moving patients.

Select the type of T&UM request that you would like to perform:

T&UM Request Type	Description
<input checked="" type="radio"/> Site Transfer	Update the institution associated with a patient enrollment (this may involve updates to credentialing data).  <b>For changes to a patient's institution, the transferring sites must initiate a conversation with potential receiving sites on accepting their patients, and confirm agreement prior to initiating the site transfer process in the T&amp;UM tab of OPEN.</b>
<input type="radio"/> Credentialing Data Update	Update credentialing data for a patient that will remain at the same institution.
<input type="radio"/> Demographic Data Update	Update demographic data for a patient.

# Notifications

- Automated e-mail notifications:
  - Between transferring sites.
  - To LPO for transfers, person updates, and demographic updates.
  - To requestor after rejection or acceptance of request for transfer or demographic update.
  - To the Pharmaceutical Management Branch for transfers and investigator updates.

# T&UM Access

- Persons with an OPEN registrar role will have write access to T&UM module.
- Audit trails will be maintained on all request and data changes.

# T&UM Validation Checks

- Patient Transfer Checks

- The receiving site must be approved for the protocol the patient is enrolled on.
- For closed protocols, the receiving site must have an IRB approval on file with the CTSU Regulatory Office.
- The receiving site must be a member of the participating organization that is receiving credit.
- The receiving investigator must be on the roster at the receiving site.

- Credentialing Checks

- Investigators must be active with CTEP.
- Credited investigators must be active on the roster of the credited group at the enrolling site.
- Treating and shipping investigators must be active on the site's roster participating on the protocol.
- Associates must be active and on a participating roster at the site.

# Who Is Currently Using the T&UM?

- T&UM is now available in OPEN.
- T&UM is currently being used for ALLIANCE and SWOG protocols in OPEN.
- As of 11/4/2014 there have been:
  - 51 Site Transfers
  - 40 Credentialing Data Updates
  - 18 Demographic Data Updates

# Training

- The OPEN Site User Guide has been updated to include the T&UM.
- A quick reference guide is available on the Help tab in OPEN.
- T&UM section will be added to OPEN Site Training Video.

## Instructions

- NCI per case management funding will be made by the Network Group credited with the accrual or the equivalent will be provided via NCTN LAPS grant or NCORP grant directly.
- To receive per case funding for specific tests and/or biospecimen submissions, completion dates must be entered in the OPEN 'funding module' post enrollment.
- Completion dates for QOLs or any testing that is required at multiple time points are only required to be entered one time and can be the initial completion date.
- Completion dates may be entered in the OPEN funding screen for any trial component that was completed after March 1st, regardless of when the patient was enrolled to the trial.
- See protocol funding sheet for more details and information about non-NCI funding.
- Click [NCTN Funding Instructions](#) for more information.

OPEN is the web-based registration system for patient enrollments onto NCI-sponsored Network Group (NCG) and Network Groups' registration/randomization systems for patient registration/randomization. OPEN provides access through role assignments in the CTSU Regulatory Support System. To access OPEN:

- Site staff will need to be registered with CTEP and have a valid and active CTEP-IAM account.
  - This is the same account (user id and password) used for the CTSU members' web site.
- To perform registrations, the site user must have the 'Registrar' role on Network Group.
- Role assignments are handled through the Groups in which you are a member

If you have questions about this please [contact the CTSU Help Desk](#)

## Education and Resources Page

Welcome to the CTSU's Education and Resources Page ([Resources](#)), to information on how the CTSU operates through the CTSU ([Protocol-Specific Materials](#)). We use presentations that the CTSU has developed over time.

We hope that you will explore this page to discover all that would prove helpful in working with the CTSU, please
